Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant explained the differences between the present invention and the Sheen reference. Applicant explained that Sheen does not teach the full volumetric topographical representation of the target. However, this limitation is not mentioned in the claims. Applicant also argued against the combination of Sheen in view of Yukl. Applicant agreed to file an RCE including an amendment to the claims to clearly define the invention. Examiner will review the official response/amendment, and the references.
